JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PUBLIC HEALTH REPORTS.

UNITED STATES.

[Reports to the Surgeon-General, Public Health and Marine-Hospital Service.]

Report from Mobile, Ala.—Mortality from pellagra in Mobile County.

Acting Assistant Surgeon Goldthwaite, at Mobile Quarantine, reports, June 5:

The registry of deaths in the office of the Mobile County health officer shows that deaths from pellagra occurred as follows at Mount Vernon, Mobile County, Ala., on premises of Alabama Insane Hospital (department for colored insane):

	Deaths.
1906. October	23
November	16
December	9
1907. January	4
February	1

Report from Evansville, Ind.—Abatement in epidemic measles.

Surgeon Stoner reports, June 7:

There is a slight abatement in the epidemic measles present in this city. The disease is now confined mostly to the west end. A total of 545 cases was reported to the city board of health in May, with 6 deaths. So far in June 35 cases have been reported, against 79 for same date in May.

(See Public Health Reports, May 24, 1907, page 665.)

Report from Eastport, Me.—Epidemic measles.

Acting Assistant Surgeon Small reports, June 6:

Measles in epidemic form prevails in Eastport. There are many cases, mostly of mild type.

STATISTICAL REPORTS OF MORBIDITY AND MORTALITY, STATES AND CITIES OF THE UNITED STATES—UNTABULATED.
